The Hot Springs are twenty-three miles from Malvern, by stage, and are certainly well worthy a visit. There are many from your city here. -Detectives McCune and Smith veserday arrested two negroes, Peter Pearl and James Robertson, for having stolen large amount of goods. At Robert-on's residence, on Lauderdale street, near Vance, a large amount of fine chinaware, worth at least four hundred dollars, was found secreted, and as the accused was formerly porter in the house of Lloyd, Clarke & Co., it is thought he tole these articles from this firm. Since he dissolution of the above firm Robertson was porter at Erich's store, and it may be that he stole this large amount goods from this gentleman. At 'earl's house the detectives found two parrels of loaf-sugar, a box of tea, lard, offee, clothing, two dozen knives and orks, a dozen silver forks and other articles in large quantities. At the time of his arrest, Pearl was porter in the house of Thomas H. Allen & Co., from whom it is believed he stole these goods, which, with the other articles, are at he Adams street stationhouse, awaitig identification by the owners. It is ore than probable that Robertson and 'earl are connected with a gang of thieves, burglars and robbers, who, of late, have been committing frequent depredations in this city. Detectives mith and McCune are now on the right track, and will doubtless arrest several

ther members of the gang. PERSONAL.

Augual Meeting of the Stockholders-Election of Officers-Encouraging Report-Etc.

At the annual meeting of the stock-holders of the Memphis Water Com-pany, held this day, the following gen-tlemen were elected directors for the ensuing year, viz: Wm. M. Farrington, Wm. S. Bruce, W. W. Thacher, John Cubbins and B. C. Brown.

Subsequently, at a meeting of the board, John Cubbins was re-elected president, and W. L. Cameron, reappointed secretary and treasurer. From the reports, we extract the folowing as of interest to the public: The embarrassments of the company are attributed to the unexampled afflictions that have befallen our city, and to FOR NEW ORLEANS. the refusal of the city to pay for hydrant

They state that the embarrassments have been relieved for a year at least by an extension granted by nearly all its reditors, and by the liberality of its largest creditors in making it a further loan, sufficient to complete the settling reservoir, and purchase a year's supply

This, with such a board of directors, must secure the good will and confidence of our citizens, and largely in-crease the consumption of water. Since the completion of our works, about FORTY fires have broken out upon or near the line of our pipes, every one of which has been confined to the uilding in which it originated by our hydrants, and without the use of the fire engines. The loss upon all these fires has not amounted to nearly as much as that from one fire, which occurred a short time previous to the com-

pletion of our works. Many complaints have been made as to the quality of our water, some of which, we are compelled to admit, are well grounded; but the charge that it is unwholesome or tends to produce sickness, we think is sufficiently refuted by the statement of the proprietors of the Peabody hotel, where our water has been used for all purposes, that not a single case of yellow fever originated (nor any other sickness) that could be charged to

the water. A filterer, used largely in Louisville and other cities, has been placed on ex-hibition in the company's office, which makes the water perfectly pure and

the employes for their diligent atten-tion to the business of the company during the year, especially in view of the fact that with all the difficulties ful sickness, even in their own families, and, in some cases, their own persons the company has never suspended operations for a single hour, and has always responded to the demands of the city for water, and for power to extinguish
